## Feeding considerations:

**Day 1** Feed high quality colostrum as soon as possible after birth. If quality maternal colostrum is not available, feed LAND O LAKES® Bovine IgG Colostrum Replacer for kid goats and lambs to help build immunity.

**Day 2** Begin feeding LAND O LAKES® Doe's Match® kid milk replacer after colostrum and feed for at least 30-40 days (4-6 weeks of age) or when kids weigh 25 lbs.

 At 2 weeks of age, start kid goats on a high-quality creep feed such as Purina® Honor Show Chow EXP 15 DX or Purina® Goat Grower/Finisher 14 DX .0033. Do not feed hay or oats for the first 3 weeks.

 Provide fresh, clean water at all times.

 During times of stress: Feed LAND O LAKES® Electrolyte Complete according to label directions.

 Always keep LAND O LAKES® Doe's Match® kid milk replacer on-hand in case your kids need high-quality nutritional support.
